SUPPLEMENTARY INFORMATION:

On August 31, 2020, the U.S. Department of Energy (DOE) published a document in the *Federal Register* soliciting public comment on a NOPR, which proposes revisions to existing enforcement regulations for certain consumer products and commercial and industrial equipment covered under the Energy Policy and Conservation Act of 1975, as amended. 85 FR 53691. Comments were originally due by October 30, 2020. On September 24, 2020, DOE received a joint request from the Air-Conditioning, Heating, & Refrigeration Institute, Association of Home Appliance Manufacturers, National Electric Manufacturers Association, and AMCA International requesting a public hearing (see <https://beta.regulations.gov/comment/EERE-2019-BT-CE-0015-0002>). DOE has reviewed the request and considered the benefit to all stakeholders in providing an opportunity to engage in a public hearing with DOE. DOE also considered the benefit of providing additional time to review the NOPR and gather information/data that DOE is seeking. Accordingly, DOE extends the comment period until December 30, 2020. In addition, DOE will be holding a webinar on December 8, 2020.

Public Participation

DOE invites public participation in this process through participation in the webinar and submission of written comments and information. After the webinar and the closing of the comment period, DOE will consider all timely-submitted comments and additional information obtained from interested parties, as well as information obtained through further analyses.

The time and date of the webinar are listed in the **DATES** section at the beginning of this document. If no participants register for the webinar, then it will be cancelled.

Webinar registration information, participant instructions, and information about the capabilities available to webinar participants will be published on DOE's website:

<https://cms.doe.gov/eere/buildings/public-meetings-and-comment-deadlines>. Participants are responsible for ensuring their systems are compatible with the webinar software.
